

TALHA AHMAD

Game Developer | Unity Engineer | Mobile Game Specialist

Lahore, Pakistan | +92 333 6971868 | atalha9222@gmail.com | [Portfolio](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Computer Science graduate (BSCS, University of Central Punjab) and Unity game developer with hands-on experience shipping hypercasual and mobile titles end-to-end — from gameplay systems and asset pipelines through App Store submission and monetization. Currently at AiriDev, building hypercasual iOS games, supervising interns, and managing Unity Asset Store and App Store publishing. Independently led development of a Unity 6 merge-grid mobile game as technical lead, covering gameplay debugging, AdMob monetization, and release management. Comfortable owning a project from prototype to store listing.

SKILLS

Game Engines & Tools: Unity (Unity 6), Blender, Git/GitHub

Game Development: Hypercasual Game Development, Gameplay Programming, Tile/Merge Mechanics, Tutorial & Onboarding Systems

Asset Pipeline: 3D Modeling & Texturing, Asset Optimization (Game/VR), Unity Asset Store Publishing

Monetization & Publishing: AdMob Integration (Banner, Interstitial, Rewarded Ads), iOS App Store Submission & Compliance, Ad Privacy Disclosures

Programming Languages: C#, C++, Python

Soft Skills: Technical Leadership, Intern Supervision, Cross-Functional Collaboration, Independent Ownership

Languages: English (Professional), Urdu (Native)

WORK EXPERIENCE

Intern | AiriDev

Sep 2025 – Present

- Developed hypercasual iOS games from concept through release, handling core gameplay implementation in Unity.
- Supervised and mentored intern developers, reviewing work and guiding technical decisions on game projects.
- Managed end-to-end App Store game uploads, including build preparation, store listings, and compliance requirements.
- Published and maintained assets on the Unity Asset Store, preparing production-ready packages for release.
- Sustained long-term participation on an ongoing game project, contributing consistently across multiple development cycles.
- Applied 3D modeling and texturing skills in Blender to prepare production-ready assets for games and VR environments.

KEY PROJECTS

Unity Mobile Game — Merge-Grid Gameplay System | Independent / Technical Lead

2025 – Present

- Served as technical lead for a Unity 6 mobile game, directing feature development, debugging, and release readiness.
- Diagnosed and resolved core gameplay bugs across tutorial, customer, and tile-merge systems, improving stability.
- Implemented AdMob monetization (banner and rewarded ads) and managed the iOS App Store build and submission process.

Puzzle Game Series — Six Mobile Titles | Independent Developer

2026

- Designed and developed six minimal mobile puzzle games (Beam Split, Tile Rotate, Current Rush, Shadow Match, Flip Path, Charge Defense) for iOS release.
- Authored full game design documents and compliance documentation ahead of App Store submission.

EDUCATION

Bachelor of Science in Computer Science (BSCS) | University of Central Punjab

Nov 2022 – Jul 2026

CERTIFICATIONS

- Game Development in Unity — Game Train (Apr 2025 – Jun 2025)
